

## EXPORT STUDENT DATA

## Step 1: Go to Import Users

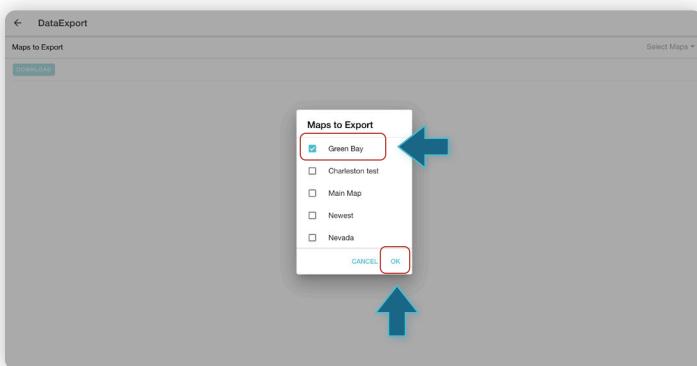

To obtain data about student use of maps you have shared, click the **Data Export** button.

(If you do not see this option, please contact [epistemicanalytics@gmail.com](mailto:epistemicanalytics@gmail.com) to request an educator account.)

## Step 2: Select Map

Click the **Select Maps** button in the top-right corner.

## Step 3: Selecting Maps to Export

A module will appear listing all your **Existing Maps**.

Choose the map(s) you want to export, then click **OK**.

A **CSV** file will be downloaded containing the data for the selected map.
